

MUHAMMED IRFAN K M

Mangaluru, Karnataka, India

☎ +91 8714334899 | ✉ irfanmmk317@gmail.com | 🌐 [Portfolio](#) | [LinkedIn](#) | [Github](#)

Professional Summary

Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning with hands-on experience building AI-powered applications, backend systems, and full-stack software. Skilled in computer vision, RESTful API development, authentication systems, and modern web technologies, with a strong focus on solving real-world engineering problems.

Education

Sahyadri College of Engineering & Management

Mangaluru, Karnataka

Bachelor of Engineering in Computer Science (Artificial Intelligence and Machine Learning)

2023 – 2027

CGPA: 8.0 / 10

Technical Skills

- **Programming Languages:** Python, JavaScript, SQL, C
- **Backend Development:** Node.js, Express.js, REST APIs, JWT Authentication, bcrypt
- **Frontend Development:** React.js, React Native, Next.js, TypeScript
- **AI / Machine Learning:** YOLOv8, PyTorch, OpenCV, Roboflow, NumPy, Gradio
- **Databases:** MySQL, Firebase
- **Tools & Technologies:** Git, GitHub, VS Code, Postman
- **Core Competencies:** Computer Vision, REST API Development, Database Design, Full Stack Development
- **Languages:** English (Fluent), Malayalam (Fluent), Hindi (Fluent), Arabic (Basic)

Projects

IRFAN OS – Interactive Developer Portfolio

2026 – Present

Next.js, TypeScript, React Three Fiber, Three.js, GSAP, Tailwind CSS

- Engineered an immersive operating system-inspired developer portfolio featuring interactive 3D environments, desktop mode, terminal navigation, AI assistant, voice commands, hidden mini-games, and achievement systems.

Portable Microplastic Screening Using Deep Learning

2025 – 2026

Python, YOLOv8, PyTorch, OpenCV, Roboflow, Gradio

- Developed an AI-powered computer vision system to detect microplastics using custom-trained YOLOv8 models on optical microscopy images.
- Engineered an interactive Gradio inference interface and incorporated a safety scoring algorithm.

Expense Splitter

2025

Node.js, Express.js, React, MySQL, JWT

- Built a secure full-stack expense management application with JWT authentication and RESTful APIs.
- Implemented group expense tracking and balance settlement logic backed by a MySQL database.

Smart Health ID

2025

React Native, Firebase

- Developed a QR-based emergency medical access system enabling secure and rapid retrieval of patient records.

Technical experience

Software Development Projects

2025 – Present

- Developed backend APIs and authentication systems using Node.js and Express.js.
- Built full-stack applications using React, MySQL, and Firebase.
- Applied software engineering principles, database design, and Git version control across academic and personal projects.

Achievements & Certifications

- **Certifications:** Python • Programming Fundamentals • Artificial Intelligence (Infosys Springboard)
- **Hackathons:** College Shortlisted for Smart India Hackathon (SIH).
